ID3A Seed Proposal Budget

Total Request: $13,417

Personnel

- Tom (Library IT, Staff) – 25% May salary + fringe: $2,167
    - Supports cloud deployment, secure configuration, API integration, AI-ready indexing setup, and system architecture testing for the InvenioRDM production environment. This effort represents essential technical implementation time required to operationalize the pilot within the funding window.

Infrastructure

- AWS Cloud Prepaid Allocation: $4,200
    - Prepaid cloud allocation to support hosting of the production InvenioRDM instance, secure agricultural dataset staging, API configuration, AI-ready metadata indexing, and development/staging environments. Funds will be encumbered and expended prior to May 31, 2026.

Engagement

- Two Digital Agriculture Infrastructure Workshops: $800
    - Supports refreshments and materials for two ID3A affiliate workshops focused on AI-ready repository design, metadata alignment, and research workflow integration.

Travel (prepurchase)

- Open Repositories 2026 (Virtual) – 3 Registrations: $150
    - Supports team-based technical benchmarking and implementation training focused on repository architecture, metadata, APIs, and interoperability relevant to the InvenioRDM pilot.
- NASIG Annual Conference (Madison, WI) – 2 Attendees: $3,600
    - Supports benchmarking of scholarly communication workflows, metadata practices, and repository integration models that directly inform agricultural research deployment.
- Collation of Networked Information (Salt Lake City, UT) – 1 Attendee: $2,500
    - Supports benchmarking of AI-enabled research repository architectures and governance models among peer R1 institutions.

Publishing

- Diamond Open Access Dissemination (New Prairie Press): $0
    - Project outputs will be disseminated via institutional Diamond Open publishing infrastructure at no cost.
