Subject: Cassanda Olds SAS Proposal, Data Curation Support

Morning all, hope you're enjoying Spring Break.

OPE was contacted by Prof. Cassandra Olds to provide research data management (RDM) support for her multi-year USDA SAS proposal. I'm forwarding OPE's documentation (SOW, budget, and budget justification).

In general, OPE is happy to provide consultation and DMP review support at no cost to library patrons. However, this project involves a more substantial and ongoing RDM role, which would require budgeted support.

If awarded, funds would be transferred to the library as a single allocation, with the attached materials serving as an itemized breakdown of services and costs. I've also reviewed this approach with Julie Bell.

Please let me know if you have any questions or would like to discuss further.

Best,
--
